

Slide 1 features the JoBurmester.com logo in the top left and the text "JoBurmester.com Clinical Research Knowhow" in the top right. The main title "GCP Update Webinar" is centered, with "April 2022" below it. A green gradient bar is at the bottom.

1

---

---

---

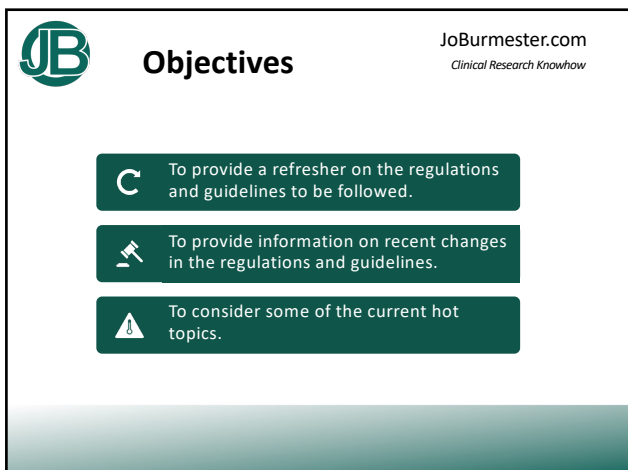

---

---

---

---

---

Slide 2 is titled "Objectives" and includes the JoBurmester.com logo and name. It lists three objectives in green boxes: "To provide a refresher on the regulations and guidelines to be followed.", "To provide information on recent changes in the regulations and guidelines.", and "To consider some of the current hot topics." A green gradient bar is at the bottom.

2

---

---

---

---

---

---

---

---

Slide 3 is titled "Agenda" and includes the JoBurmester.com logo and name. It shows a vertical flowchart with five steps: "ICH Update", "EU Legislation Update", "Essential Documents", "Reference Safety Information", and "Risk Assessment". A green gradient bar is at the bottom.

---

---

---

---

---

---

 JoBurmester.com  
Clinical Research Knowhow

## Sponsor

-  Design, management and funding
-  Regulatory requirements and compliance
-  Risk based quality management
-  Monitoring and oversight
-  Safety review and reporting
-  Final study report

9

---

---

---

---

---

---

---

---

**JB** ICH GCP JoBurmester.com  
*Clinical Research Knowhow*

**Ultimate responsibilities**

- Sponsor
  - Funding
  - Regulatory requirements
  - Ensuring Protocol, GCP and GMP compliance
- Investigator
  - Trial Conduct at site
  - Subject safety and wellbeing

Can delegate task but not responsibility

Need very clear documentation

10

---

---

---

---

---

---

---

---

**JB** ICH GCP JoBurmester.com  
*Clinical Research Knowhow*

**Essential Documents**

- Protocol and Amendments
  - Study is to be conducted
- Investigator Signature
  - All about the investigator
- Trial Master File/ Investigator Site
  - All documentation and correspondence
- Case Report Forms
  - Where all the study data are recorded

*"If it's not documented it didn't happen!"*

11

**ICH E8 and E6 "Renovation"**

- ICH consulting on revision of E8 (General Considerations) and E6
- E8 (R1) Now final
- E6 also being revised
- More information on ICH website

12

---

---

---

---

---

---

---

---

**E8 (R1)**

JoBurmester.com  
*Clinical Research Knowhow*

1. Objectives of this document
2. General Principles
3. Designing Quality into Clinical Studies
4. Drug Development Planning
5. Design Elements and Data Sources for Clinical Studies
6. Conduct, Safety Monitoring and Reporting
7. Considerations in identifying Critical to Quality Factors
  - Annex – Types of Clinical Studies

13

---

---

---

---

---

---

---

---

**ICH E6(R3)**

JoBurmester.com  
*Clinical Research Knowhow*

- Draft principles document has been published
- Will form basis of new version
- Annex 1 – traditional RCTs
- Annex 2 – non-traditional designs

14

---

---

---

---

---

---

---

---

**Draft Principles – Key Points**

JoBurmester.com  
*Clinical Research Knowhow*

- Participants not subjects
- QbD and CtQ
- Participant and physician involvement
- RBQM
- Use of tech in Informed Consent
- Feasibility and Simplicity
- Responsibility of Sponsor and Investigator
- Risk based approaches for supply and handling of IMP

### EU Clinical Trials Legislation

**Option until Jan 23:**

- Clinical Trials Directive
- GCP Directive
- GMP Directive

**Future (From Jan 2022):**

- Clinical Trials Regulation
- GMP Regulation

18

---

---

---

---

---

---

---

---

**JB** EU CTR Application Timelines **JoBurmester.com**  
*Clinical Research Knowhow*

EU CTR:  
 • Adopted in 2014  
 • Applied from January 31<sup>st</sup> 2022

- Jan 2022**
  - New Clinical Trials: Optional CTD or CTR
  - Transition of Ongoing Clinical Trials: Optional
- Jan 2023**
  - New Clinical Trials: Required to follow CTR
  - Transition of Ongoing Clinical Trials: Optional
- Jan 2025**
  - All clinical trials to follow EU CTR

19

---

---

---

---

---

---

---

---

**JB** **JoBurmester.com**  
*Clinical Research Knowhow*

### EU Regulation – Key Changes

- Clinical Trial Authorisation
  - Centralised review and decision
  - Approval in each member state
- Central Database – CTIS
- Transparency on trial status and results
- EMA inspection powers

20

---

---

---

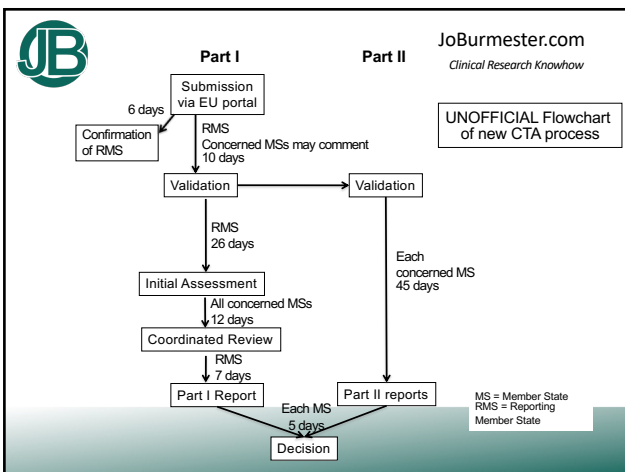

---

---

---

---

---

21

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

### Other changes

- Serious Breaches – 7 day reporting
- Urgent Safety Measures – 7 day reporting
- Any event affecting risk/benefit – 15 day reporting

22

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

### Other Changes

- Report to regulatory authority within 15 days of trial start
- Also within 15 days of first subject recruited
- Also within 15 days of end of recruitment
- Also within 15 days of end of trial in that state and then again and of trial overall.

23

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

### Post Trial

- Mandatory to post results within 12 months
- Lay persons summary also within 12 months
- TMF to be kept for 25 years

24

---

---

---

---

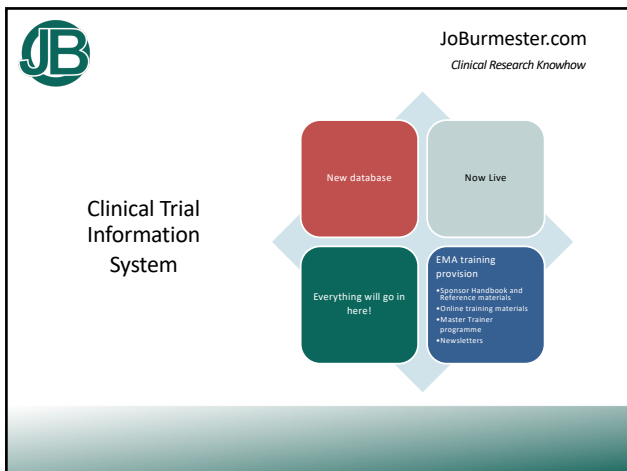

---

---

---

---

25

---

---

---

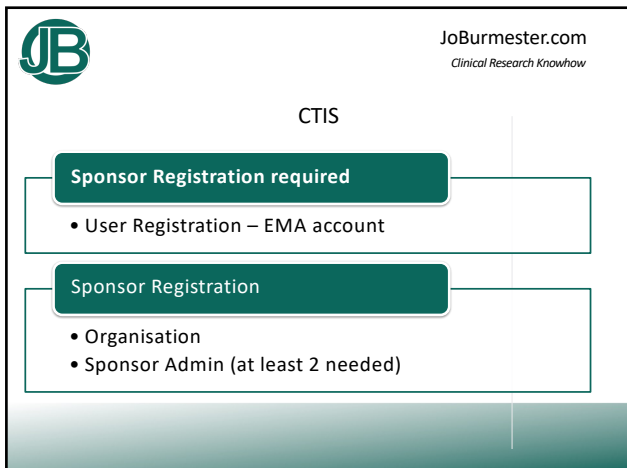

---

---

---

---

---

26

---

---

---

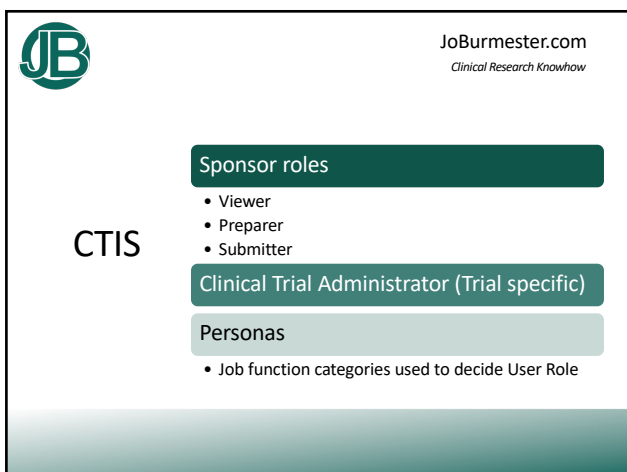

---

---

---

---

---

27

---

---

---

---

---

---

---

---

 JoBurmester.com  
*Clinical Research Knowhow*

### Poll

What is the timeline?

---

---

---

---

---

---

---

---

28

 JoBurmester.com  
*Clinical Research Knowhow*

### Timelines for reporting

Task	Timeline
SAE – investigator to report to sponsor	
Serious Breach	
DSUR	
End of trial under new EU Regulation	
Lay summary of results	

---

---

---

---

---

---

---

---

29

 JoBurmester.com  
*Clinical Research Knowhow*

### New EU Guidances

- Inspections
- GMP for IMPs
- Ethical issues re clinical trials in children
- IMPs and AxMPs
- Summary of CT results for laypersons
- Risk proportionate approaches to clinical trial
- Serious Breaches

---

---

---

---

---

---

---

---

30

*Clinical Research Knowhow*

## Brexit

31

---

---

---

---

---

---

---

---

## Brexit

JoBurmester.com  
*Clinical Research Knowhow*

- EU Legal representative
- If no EU office outside UK will need to appoint a legal representative to run trials in the EU

32

---

---

---

---

---

---

---

---

## IMP Post Brexit

JoBurmester.com  
*Clinical Research Knowhow*

- QP certification from other EU countries will still be recognized, but UK QP review needed – 12 months to comply
- IMPs can be sent direct to investigational sites
- Import license will be required – 12 months to comply
- Will need EU QP release to export from UK

33

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

## Brexit

- CTA process
  - Now have to use UK system rather than EU system
  - Combined review now for all CTIMPs
- HRA will register trial on ISRCTN
- UK will have its own portal and public database in due course

34

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

## Brexit

- Expedited safety reports
  - Cannot now use Eudravigilance for reports in UK
  - Must use MHRA online system

35

---

---

---

---

---

---

---

---

JoBurmester.com  
*Clinical Research Knowhow*

## The Future in the UK

36

---

---

---

---

---

---

---

---

 JoBurmester.com  
Clinical Research Knowhow

### MHRA recent Guidances

- Electronic Health Records
- Risk Adapted Approaches
- RWD / RWE
- Oversight and Monitoring of IMP trials

---

---

---

---

---

---

---

---

37

 JoBurmester.com  
Clinical Research Knowhow

### The Future in the UK

MHRA have consulted on revised legislation

First new legislation likely to come out later this year

Many aspects of EU CTR and ICH E6(R3) will be implemented

---

---

---

---

---

---

---

---

38

 JoBurmester.com  
Clinical Research Knowhow

### MHRA priorities for new legislation

- Patient focus**
  - Involvement in research planning
  - Transparency
  - Diversity
- Streamlined processes**
  - Combined Review
- Risk proportionality**
  - Risk adapted approaches
  - Notification scheme for low interventional
- Agile**
  - Flexibility – able to adapt to innovation
- International**
  - In line with international standards

---

---

---

---

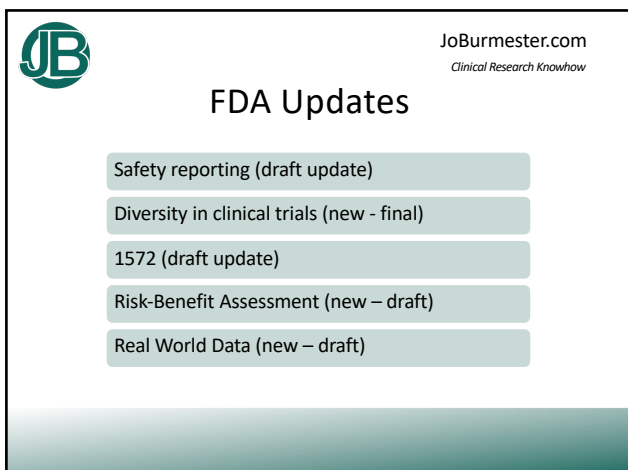

---

---

---

---

39

Slide 40 features the JoBurmester.com logo in the top left and the text 'JoBurmester.com Clinical Research Knowhow' in the top right. The main title is 'FDA Updates'. Below the title are five light green rounded rectangular boxes, each containing a topic: 'Safety reporting (draft update)', 'Diversity in clinical trials (new - final)', '1572 (draft update)', 'Risk-Benefit Assessment (new - draft)', and 'Real World Data (new - draft)'. The slide has a green gradient footer.

40

---

---

---

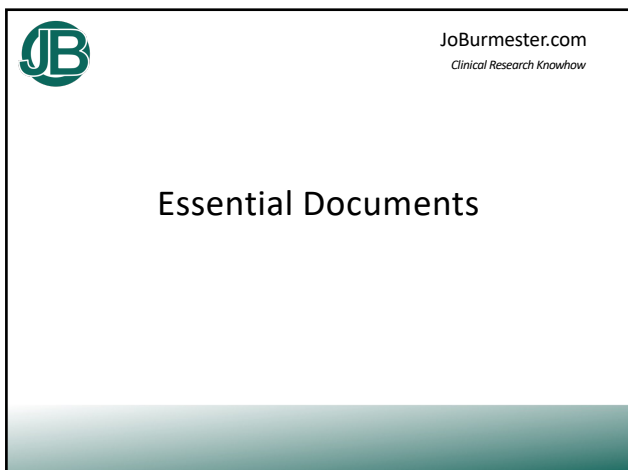

---

---

---

---

---

Slide 41 features the JoBurmester.com logo in the top left and the text 'JoBurmester.com Clinical Research Knowhow' in the top right. The main title is 'Essential Documents'. The slide has a green gradient footer.

41

---

---

---

---

---

---

---

---

Slide 42 features the JoBurmester.com logo in the top left and the text 'JoBurmester.com Clinical Research Knowhow' in the top right. The main title is 'Trial Master File'. Below the title is a bulleted list: 'Sponsor Files', 'Investigator Site Files', 'All relevant documentation and correspondence', and 'ICH E6 chapter 8'. The slide has a green gradient footer.

42

---

---

---

---

---

---

---

---

JoBurmester.com  
Clinical Research Knowhow

## Good Documentation Practice

- Authoring
- Review
- Approval
- Version Control
- Naming, filing and meta data
- Certified copies
- Archiving

43

---

---

---

---

---

---

---

---

JoBurmester.com  
Clinical Research Knowhow

## Example Inspection Finding

- MHRA Critical Finding (part of finding report):
  - There were a number of essential documents for a trial retained by vendors which were not defined in the TMF plan or TMF index.
  - The TMF index for a trial was at an artefact level and the quality system did not address an overview all the systems holding essential documents.
  - There was a lack of effective oversight QC of an eTMF by the sponsor.
  - Several issues were identified with the eTMF including examples of missing, misfiled, misnamed and duplicated documents.

44

---

---

---

---

---

---

---

---

JoBurmester.com  
Clinical Research Knowhow

## Archiving

- Up to 25 years
- Named person responsible for archives
- Separate files for Sponsor and Investigators
- Investigator to have independent copy of CRFs

45

---

---

---

---

---

---

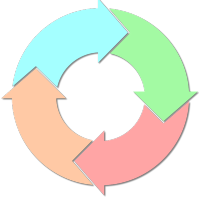

---

---

 JoBurmester.com  
*Clinical Research Knowhow*

## Risk Assessment

- RACT
- RAMP
- KRIs, QTLs and Thresholds

46

---

---

---

---

---

---

---

---

 JoBurmester.com  
*Clinical Research Knowhow*

## What factors might affect risk in a clinical trial?

47

---

---

---

---

---

---

---

---

 JoBurmester.com  
*Clinical Research Knowhow*

## Quality Tolerance Limits

- Defined at organization/programme/trial level
- Recommend 5-7 in total initially
- Apply to all trials/sites (generally)
- Different from KRIs but there is inevitably some overlap
- Reportable in CSR

48

---

---

---

---

---

---

---

---

JoBurmester.com  
Clinical Research Knowhow

### Elements to consider when establishing QTLs

- Parameter
- Definition
- Unit
- Expectation
- Tolerance limits (upper, lower, or both)
- Justifications
- Mitigations

49

---

---

---

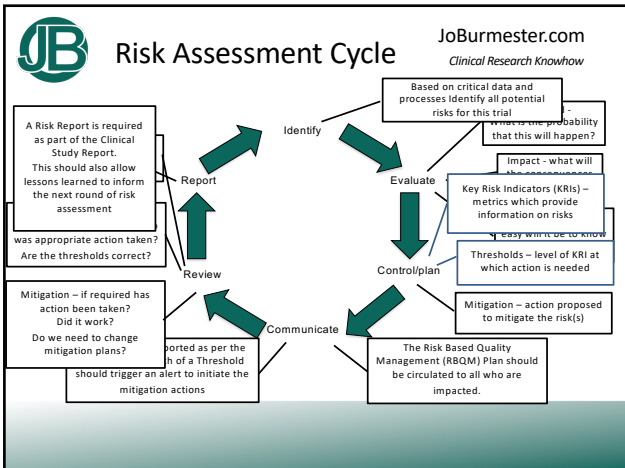

---

---

---

---

---

50

---

---

---

---

---

---

---

---

JoBurmester.com  
Clinical Research Knowhow

### Summary

- More change has happened
- More is coming
- Lots of guidance out there

Subject Safety

Data Quality
